

Please leave the Wisconsin No Call list as it is. Or if you want to do something make it stronger. When are these companies going to realize that people do not want to be bothered constantly. I believe that there should be an "opt-in" list if you want to be called. My guess is it would be a very short list. Why put the burden of opting out of everything on the consumer. Something similar for email would be nice as well. Do not give in to these companies and let us have our peace. Thank you.
